

# 4 Line Articulating Decon Shelter (NBCART4D)

## Purpose

**4 Line Decontamination Shelter for effective decontamination of both ambulatory and non-ambulatory casualties within the same compact footprint.**

### Technical Data

- Dimensions: L 5.8m x W 4.9m H 2.6m
- Weight: 170kg
- Parts: Corrosion resistant anodized patented aluminum frame with chemical resistant fabric
- Packed dimensions:  
L 1100mm x H 1100mm x W 1100mm
- UV stable, fire retardant and chemical resistant fabric on interior
- Set Up: 4 People in 8 minutes

### Features & Benefits

- Patented external articulating frame with corrosion resistant anodized aluminium.
- Design facilitates rapid deployment; shelter can operate with 30% of frame missing or broken.
- UV stable, fire retardant and chemical resistant fabric on Interior
- Provides durability; protects exterior frame from contaminants and expedites post-use clean up
- Stores to 1.1m<sup>3</sup>
- Space efficient for facilities with limited space
- Separates into 3 decon lines
- Enables patient privacy for male and female patients; added lane for nonambulatory
- On/Off capable shower nozzles on interior fabric saturate patients with 360° of spray
- Maintains system integrity and maximizes decon capability; nozzles can easily turn on or off for user's specific needs
- Four ergonomic overhead hand sprayers
- Effective in non-ambulatory decontamination
- Conveyors with articulate frame and matching transfer boards
- Easily transports non-ambulatory patients down entire length of shelter
- Interior Basin contains the waste water within the wash/rinse area of the shelter
