

## Purpose

To provide a portable electrical supply. Designed to provide a portable 110 volt / 6kW (7.5 Kva) 50Hz electrical supply via 2 site safety electrical connections with a running time under load of 10 hrs on one tank of fuel.

### Technical Data

- Dimensions:  
L 0.99m x W 0.64m x H 0.71m
- Weight: 80 kg
- Fuel/Power Supply: Unleaded petrol
- Max noise level: 72dB
- Tank capacity: 19 litres
- Tank running time: 10 hours when run at  $\frac{3}{4}$  load

### Features & Benefits

- The generator has a gauge to clearly identify the fuel level, together with clear markings for fuel type, maximum fuel content and the maximum running time
- The generator is fitted with foldable handles that allow it to be tilted forward to assist manoeuvring when wheeling it around the site and is able to be moved and operated by one person
- The generator has a low engine oil cut off facility to prevent damage to the unit
- The generator has 2 wheels at the front of the unit and 2 legs at rear of the unit to stop it rolling away when the unit is at rest

## Now there's a better way
